# MULTIPACK

## PAKKE- OG MERKESYSTEM

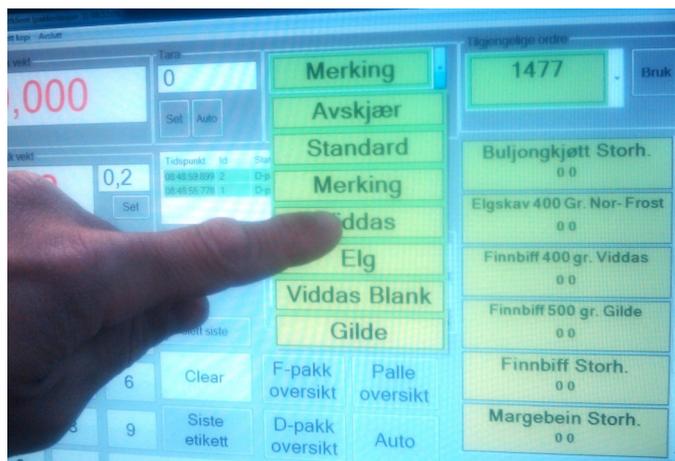

### Increase efficiency

Multi Pack simplifies everyday life. With simple and thoughtful features you will get better flow in production and less risk of failure.

- Large screen with large keys
- Possibility of data correction directly on the screen.
- Easy maintenance through the use of standardized parts.
- Easy to support via remote support.
- Low costs and easy to obtain spare parts.
- Standard network communication provides stability and rapid response in the whole system.

Multipack has a new, modern interface, inspired by Microsoft Office 2007.  
See our website: [www.multipack.no](http://www.multipack.no) or call for more information:

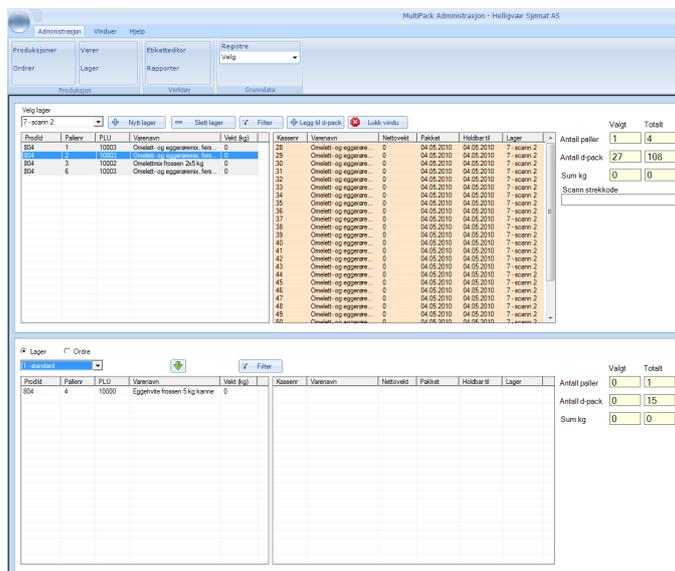

### Get control of your inventory

Inventory management is the key to bigger and better margins.  
Multipack offers inventory management at all levels of business.

- Datacollection to the database by weighing and marking of goods.
- Create orders by scanning bar codes.
- When the last box is registered, you can print pick lists, reports and shipping documents and these can also be sent by email.
- Export orders to a financial system.
- You gain the ability to track where the goods come from and where the goods are delivered.
- You know where the goods are at any time.

Multipack comes with the ability to run on Intermec label printers so you do not need a PC in the production room.

### Switch to Multipack

It may be easier and more affordable than you think.

- Multipack can be connected to most of the scales with a serial port.
- Multipack runs on all computer terminals with Microsoft Windows XP ++ operatingssystem
- Multipack works with Intermec label printers.
- We also supply industrial PC terminals (IPC) which is very well suited for harsh environments.
- Multipack communicate using standard network cabling that is neither difficult nor expensive.
- Easy installation and setup that can be performed by the company's IT manager.
- We also install via remote control, ask for price.

We have a dedicated hotline so you can get help outside of regular opening hours.

**Contact us for a demonstration of the system.**
